Georgia has BESS outdoor base station power supply

Overview

Georgia Power has begun construction on a 200 MW battery energy storage system (BESS) near its Twiggs County Solar facility, with completion scheduled for 2027. The Twiggs BESS will store excess solar energy during periods of low demand, ensuring a reliable power supply during peak times. The project was selected through a competitive process as a result of the 2023 Integrated Resource Plan (IRP) Update. Georgia Power begins construction of newest battery storage system near Macon
