Selling photovoltaic solar panels

Frequently Asked Questions

How to sell photovoltaics?

There is a way to sell photovoltaics and other RES in the industry faster and more efficiently. Solares PRO is user-friendly, intuitive and at the best price on the market. You can use it on any device - phone, tablet or computer, and for free until the end of the year! Only after that time you will choose a renewable subscription plan.

How do you sell solar energy?

This can either be done by selling all of your solar energy to the grid, using electricity from the panels and selling the surplus, or by returning your surplus for free, in exchange for a government grant. With a few rules and regulations in place, this article explains the required steps to sell energy from your panels.

Should you sell solar panels?

You're not selling people solar panels, you're selling them a solution to their problem, and the best way to figure out what their problem is to get to know them and build from there. As we mentioned earlier, education, certifications, and knowledge are everything when closing solar deals.

Can solar panels be sold to the grid?

The most important thing to note is that not all solar panel installations can benefit from selling energy to the grid. There are two main types of installations - photovoltaic panels and solar thermal panels. You can sell energy from your photovoltaic panels, which convert sunlight energy into electricity.

How do you price solar panels?

Pricing solar panels depends on power capacity and quality. The best practice for pricing solar panels is to analyze your competitors and calculate your costs using Shopify's free profit margin calculator. What are some good examples of online solar panel stores?

Can you sell solar energy back to the grid in France?

It is important to highlight there are three ways of selling electricity from solar panels back to the grid. The good news is that all of these can apply to second-home owners in France. If you only want to sell your surplus energy as opposed to all your energy produced, you are only eligible for the prime à l'autoconsommation.
