The mounting bracket has 4 holes and is molded right to the plug socket. 8 screws are also included. This can be used for so many things like ...

Plug In Solar Panels: Will There Ever be a Tipping Point?

What's the alluring part? Well, you theoretically don't need an installer or electrician. Solar equipment like panels, inverters, and wire only account for about 40% of the total cost of a roof-top system according to a 2017 NREL study of solar costs (chart on page 21). If you can avoid hiring an installer, you can cut out 60% of the traditional cost of solar!
