Which brands of capacitors are good to use

Frequently Asked Questions

What are the best capacitor brands?

When it comes to reliable capacitors, the quality of the brands is key. Some of the most reliable capacitor brands include Panasonic, Nichicon, Rubycon, Vishay and United Chemi-Con. All these companies offer high-quality capacitors that are built to last in a variety of different circumstances. What country makes the best capacitors?

Where can I buy a capacitor?

Capacitors seem to be one of those things that is counterfeited a lot, so definitely want to buy from good sources like Digikey, Mouser etc. AVOID Ebay, Aliexpress, Amazon etc as you don't know what you're getting. Re: Capacitor brands? Vishay and Kemet are not "premium" grade electrolytic manufacturers.

What are the best audio capacitors?

However, some of the top-rated brands include Panasonic, Nichicon, Rubycon, Vishay and United Chemi-Con. All these companies offer high-quality capacitors that are built to last in a variety of different circumstances. Useful Video:

Should I buy capacitors from China?

Don't ever buy capacitors from China. Especially top brands from the post above. In addition to those there are: Vishay and Kemet are not "premium" grade electrolytic manufacturers. Kemet makes fine poly's and Vishay makes fine ceramic caps. I would not recommend either as first choice for Electrolytics.

Who makes the best film capacitors?

Each of these countries has its own unique capabilities when it comes to producing quality capacitors. Which is the best film capacitor manufacturer? When it comes to film capacitor manufacturers, some of the most well-known and reliable brands are WIMA, Cornell Dubilier, Panasonic, Nichicon and Kemet.

Are third-tier capacitors a good choice?

These third-tier capacitors, according to information from various PSU manufacturers and people with knowledge of RMA statistics, along with our own experiences with caps, might not be among the best choices, but are still a grade above the caps that belong to the last category. This group includes the rest of the capacitor brands.

Best brand of capacitors to replace old crossover capacitors?

I'm doing a refresh on an set of Goodman speakers 15" triaxium 905c's and i need some recommendations on capacitor brands to replace the old tired and worn capacitors in the crossover. Specs: 8uf 20v 1.5uf 150v Any recommendations?

Best Capacitor Manufacturers: Top Companies for High-Quality ...

A good manufacturer should offer a wide range of capacitors, including ceramic capacitors, tantalum capacitors, aluminum electrolytic capacitors, and more. Having a diverse product ...

The Best Electrolytic Capacitors

You will find all the related theory behind the testing procedure I use and the complete methodology in the article below: Best Electrolytic Capacitors – Theory & Methodology; Many thanks for sending me all the capacitors in the photo above for testing. I hope more brands will help me in this new endeavor. Capacitor Performance Database

What capacitors can I use?

The Sprague Black Beauty, Bumblebee, and Vitamin Q caps all are paper-in-oil capacitors, which were used in most electric guitars from the '50s and early '60s. The components of the capacitor contribute somewhat to the tone of your instrument.

Top 6 Capacitor Manufacturers in the World

Ceramic disk capacitors and WEECONS may range from 1 pF to .082 mF, utilizing various high Q materials that offer optimized performance and stability over extreme temperature ranges. The company has earned its ...

What's the difference between "good" and "bad" quality capacitors?

"Brand name" is one thing, but if you notice-- some of the best capacitors in the world are made in Japan (the noted Rubycon, Panasonic, and Nichicon are all Japanese companies). Japan still has extremely high quality control when it comes to electronic components, and this is the premium that you're paying for when it comes to Japanese-made components.

Buying Electrolytic Capacitor Assortments : r/AskElectronics

I assure you people counterfeit 30 cent logic gates, let alone \$1 capacitors. Only buy components that go in for real not playing around electronics from authorized distributors such as Mouser, DigiKey, Arrow, Jameco, etc. I say buy brand name capacitors in this case but maybe someone else says generic is fine.

Capacitor brands?

I did hear about Nichicon but there are tons of other brands out there, and some are relatively expensive. Which are good? Normally I don't need quality capacitors for simple circuits/learning so I'm just curious for reference. «

what capacitors to use in recap? | Audiokarma Home Audio ...

not really interested in using elna silmic or any film caps or any sort of audiophile gypsy caps. the sound im looking for just needs the right electrolytics. i feel elna silmics and any other gypsy magic to "lower distortion" will take away from the sound i like. a recap of the old gear i have that needs recapped will already tighten things up and change the sound, but i dont ...

Good/bad capacitor brands? : r/diypedals

PSA: When asking for pedal advice, it's best to mention the kind of music you play, what pickups you will use, and if you will play in bedroom or with a band most of the time. Otherwise people will mostly say which pedals they like instead of giving the best advice.

What are the best MUSICAL sounding Capacitors to use or recap ...

If you're recapping, use high quality low esr 105C caps. Discussions of this cap sounds more open, or that cap sounds more hi-fi are mostly BS. Good caps are good caps and will perform better than the 20+ year old caps the OP had mentioned. There is no "gold" cap that will make your gear sound magical. Sorry.

Top 10 Global Capacitor Brands

How can you choose a good cost-effective brand in a large number of brands?BroElectric comprehensive brand awareness of each capacitor, quality level, after-sales service, innovation, consumer reputation and other indicators of the comprehensive selection, released this list of data to facilitate your choice of capacitor brand reference to use.

The Best Electrolytic Capacitors

This is a database with the best electrolytic capacitors based on actual testing that we conduct in our lab! Not rumors, not speculation, but pure data results to find the best electrolytic capacitors!

Best capacitors for power supplies update

Standard commercial grade capacitors that meet specification are good enough. ... impedances and resonances which may be specific to that circuit rather than the magical properties oft claimed for some brands of capacitors. Stick to solid industrial types, use lots of them, keep wiring short and thick and have good local decoupling as Andrew T ...

8 Best Fan Capacitor Brands In India (February 2025)

List of Top 8 Best Fan Capacitor Brands in India 2025. Top 8 Best Fan Capacitor in India: Best Fan Capacitor Price in India: Amazon Rating (Out of 5) Coupontalk Rating (Out of 5) KELTRON Fan Capacitor: 168* 4.2: 4.1: Havells Fan Capacitor: 249* 4.2: 4.2: Lexur Fan Capacitor: 355* 4.2: 4.1: TIBCON Fan Capacitor:

Best Capacitor Company: Top Brands for High-Quality Capacitors

In this article, we will explore some of the best capacitor companies on the market and what sets them apart. One of the top capacitor companies in the industry is Murata Manufacturing. ...

Audio grade capacitor series codes for best brands 2022.

Use good quality capacitors, Yamaha did when they designed and built their gear. Don't go all out, audiophile extreme capacitors. Yamaha knows how to design and build great audio gear (even though I'd usually rather own and listen to other gear I like better). Yamaha is among the better brands, and in certain eras, made above average audio gear.

Capacitors from AliExpress/eBay etc : r/AskElectronics

If you're curious, buy it and test it. If it seems good, use it. As far as I understand, nothing is special about super capacitors regarding construction. They are just a bunch of capacitors in the same package. The device construction is a little bit more methodical than a typical capacitor, but not significantly different.

Best capacitors for power supplies update

Raw supply filtering usually requires low-esr and high temperature, even if large cans rarely fulfill any of those. That's why some people use smaller caps wired in parallel. Caps ...

Top 10 Global Capacitor Brands

How can you choose a good cost-effective brand in a large number of brands?BroElectric comprehensive brand awareness of each capacitor, quality level, after-sales service, innovation, consumer reputation ...

What is your opinion about this brands of capacitors?

TME also stocks Elite brand capacitors - these were also used a lot in lcd monitor power supplies, even in some regular computer power supplies... seen quite a few die, so definitely not to the level of Japanese brand name capacitors or even taiwanese capacitors. ... These brands are very good but less popular and expensive (except wurth ...

Best Capacitors for Crossovers

Now to the brands. I have used many, and MIT are my favourites. Solen f& f are less expensive but less good in my opinion, except for their PTFE f& f, which are as good as anyone's. Relcap makes a good capacitor. For the very best sound, I use MIT RTX series, which is a styrene / tin capacitor. YMMD. Hope that helps.

Best Capacitors for Tube Amps: Enhancing Your Sound Quality

These brands are recognized for their use of premium materials and superior construction techniques, which result in capacitors that can enhance the tone and overall performance of tube amplifiers. Choose these reputable brands for reliable and top-notch capacitors to ensure optimal sound quality and reliability in your tube amp setup.

What's the best place to purchase quality audio capacitors?

There are definitely differences between capacitors. Not all of them are relevant in audio. In my experience there is no difference between "audio grade" and "regular" capacitors. The differences are in the type capacitors (film, tantalum, ceramic, electrolytic). Some important things to understand are the following:

Best Crossover Capacitors

I'd suggest reading the Humble Homemade HiFi Cap Test thor Tony Gee does a good job of describing the audible differences between various brands of capacitors. In my personal experience, the test results are spot-on with what I've also heard.

Electrolytic capacitor brands question

There's some brands of polymer capacitors which are OK, like X-Con (if my memory is correct they're the Samxon solid/polymer capacitor division), Kemet makes a lot of solid/polymer capacitors as well and depending on how well stocked that part is they can be quite cheap if bought in volume (as in at least 25-50 pcs) There's less popular brands like Kemet ...

How to Use a Multimeter to Test Capacitors

Multimeter. In the resistance mode, a multimeter can determine if a capacitor is faulty or not. Method 3: Use a voltmeter to test a capacitor. A voltmeter can be used to test a capacitor by measuring the voltage across it. To check a capacitor using the voltmeter functionality of a multimeter, follow these steps:. Note the maximum permissible voltage across ...

Are Bojack Capacitors Good? : r/hvacadvice

The only subreddit dedicated solely to the Game Gear! Game Gear was Sega's entry into the handheld market. Nintendo's Game Boy was dominating the market, but Sega entered with a portable, color, and backlit version of it's 8-bit home console, MasterSystem.

Best Capacitor Brand: List of Premium Electrolytic ...

We highlight the top best electrolytic capacitor manufacturer brands such as Rubycon, KEMET, Nichicon, and others, known for producing high-quality electrolytic capacitors used in diverse ...

Recognizing good quality electrolytic capacitors

With new brands coming and old brands going, compiling a list of good/bad brands is a hopeless exercise, so the question is: How do I know a decent/good quality electrolytic capacitors, before I buy them? ... Using a general-purpose capacitor in a circuit that needs a high ripple, low-impedance capacitor is a prime example of where things can ...

Mod® Capacitors

Each capacitor is focused on providing the highest performance and quality available to builders, technicians, tinkerers, and musicians. Mod® offers hand-crafted oil capacitors, perfect for signal path use, as well as high-temperature electrolytic capacitors for solid operation in power supplies and elsewhere. Learn more about each of our ...

Budget capacitors : r/AskElectronics

The life time issue mainly is a concern of aluminum electrolytic capacitors. You don't have to worry about it with ceramic and film type capacitors. For solderless breadboard use, either buy a capacitor kit from c h i n a or by 2 to 5 of each value you ...

Best capacitors to use 2021?

For the smaller caps though? I've used CDE for main filter caps. The 381LX series appears to be the larger caps. Right now I'm trying to find 220uf/50V and 100/50 from the same series from the same supplier and seem to be drawing a blank if I want to use caps advertised as "low impedance".

Best Capacitors For Audio: Types, Sizing, And Selection

Finally, think about the values of your decoupling capacitors. A general rule of thumb is to use capacitors with a value around 1-10 uF for decoupling audio signals. However, this can vary depending on the specifics of your circuit and the type of noise you're trying to filter out.

Are "NOS" capacitors okay to use?

Ceramic capacitors are good for more than 100 years. (However do not use ceramic capacitors made before 1900!) ... According to my experience, a recovered capacitor of this type does usually measure better ...

PSU 101: Capacitors Manufacturer Tier List

When it comes to finding the best capacitors for your electrical projects, there are a few brands that stand out from the pack. Knowing which brand of capacitor is most reliable and suitable for your needs can be daunting. ...

Best Motor Industrial Electrical Capacitors of 2024

We have researched hundreds of brands and picked the top brands of motor industrial electrical capacitors, including uxcell, BOJACK, MARS - Motors & Armatures, VEXUNGA, PATIKIL. The seller of top 1 product has ...

Würth brand capacitors seem to be good value for the money

However, I did use some 4700uF (IIRC) Würth caps as output capacitors on a Marantz 1060 as part of a full restoration, and I would swear it was the best sounding 1060 I've ever had. Seems like I used some on the outputs of a 2015 with equally pleasing results as well.
